**AND LAST BUT NOT LEAST A
CUSTOMER INFORMATION REPORT
FOR ALL SYSTEMS**

The Pub Customer Info Report allows selection of Customer Name from Case Recordation, Mining Claim &/or Status databases.

For example a search can be performed to determinewhich customers with a name containing “MIN” (for “mining”, “minerals”, “mines”) have active or pending mining-related cases in the Case Recordation and/or Mining Claim databases.

The screenshot shows a web application interface for the Bureau of Land Management Customer Information system. The interface is divided into several sections:

- Report Catalog:** A sidebar on the left containing a tree view with folders for "Web All Systems", "Web Case Recordation Reports", "Web LLD Reports", and "Web Mining Claims Reports". The "Pub Customer Info Report" is highlighted under "Web Case Recordation Reports".
- Main Menu:** The main content area has a light green background and is titled "Main Menu". It contains three steps:
 - Step 1 - Clear All Selection Criteria:** A button labeled "Reset Selection Criteria" is highlighted with a blue arrow.
 - Step 2 - Set All Limiting Criteria:** A grid of buttons for selecting criteria: System ID, Resource Area, Category, Admin State, County, Interest Relationship, Geo State, Case Type, Customer Name, District, and Case Disposition.
 - Step 3 - Process Report:** A button labeled "Process Report".
- Header:** A blue box at the top right of the main menu area contains the text "Bureau of Land Management Customer Information (Case Recordation, Mining Claim, Status)".
- Legend:** A yellow box at the bottom left of the main menu area contains the text "Legend" and "View Only".
